

## MEDIA RELEASE

### **Valres Swiss Residential Fund: Changes in the fund management company**

Philippe Frossard, a member of the management team of Valres Fund Management SA, will be leaving the company by January 1<sup>st</sup> 2019 to embark on a new professional challenge. His broad experience and knowledge have been instrumental in the rapid success of the VSRF fund. His future contribution will now occur in the form of mandates already planned for next year.

Responsibility for the VSRF fund will be taken over by Johny Rodrigues, COO and member of the management team, from this point onward.

Concurrent with this departure, the fund management company is pleased to announce the joining of Giovanna Bray as Portfolio Manager to strengthen the real estate team as of November 1<sup>st</sup>. Her expertise and management capacity, notably acquired for 6 years with the Caisse de pension de l'Etat de Genève as managing architect, will help improve the positioning of the Valres Swiss Residential Fund on its targeted market.

#### **Valres Fund Management SA – About the fund management company**

VALRES Fund Management SA is a real estate fund management company incorporated under Swiss law, duly approved by the Swiss Financial Market Supervisory Authority (FINMA) since 2014. Supported by real estate and financial professionals, the ambition of VALRES is to develop and offer its investors a range of regulated thematic real estate funds including the Valres Swiss Residential Fund (VSRF).

Regarding its Responsible Values, VALRES incorporates a responsible approach to the management of a real estate portfolio into its principles, both economically, with the search for a long-term sustainable return, and environmentally, with the systematic quest to optimize the energy efficiency of the real estate under its management. This approach requires a highly proactive management of its properties. In addition, as a fully independent fund management company dedicated solely to real estate assets, Valres Fund Management SA may act over the long term, managing the entire value chain in the exclusive interests of its investors.
